

COMMUNITY MEETING for Mills Park Site Plan

Wednesday, September 17, 2008 at 7:00pm
Historic Pleasant Home, 217 Home Avenue (at Pleasant Street)

The Park District of Oak Park values community participation and input in helping to shape the future of Oak Park parks and facilities. Oak Park residents are invited to attend a community meeting to provide input regarding the current and future use of Mills Park for the development of a site master plan. The overall objective of a site plan is to provide “a blueprint for future park renewal.”

Historic Pleasant Home, a U.S. National Historic landmark located within the park, was sold to the Park District by the family of its second owners, Herbert Mills, in 1939. Mills Park is named in his honor. Although owned by the Park District, Historic Pleasant Home is operated by the Pleasant Home Foundation and is not a part of the site master plan development. The Mills Park Site Master Plan will only address the land surrounding Historic Pleasant Home.
