

2nd Community Meeting For Taylor Park Site Plan

Monday, May 5, 2008 at 7:00pm
Andersen Center, 824 N. Hayes at Division

Oak Park residents are invited to attend a public meeting to provide additional input regarding the development of a Site Master Plan at Taylor Park. Community input is vital to master plan development to ensure the Park District is meeting the current parks and recreation needs of the community and anticipating future needs.

Taylor Park, purchased by the Park District in 1914, was originally designed by renowned landscape architect Jens Jensen. It is the second largest park in the Park District system. In the 2006 Dogs in Oak Park Master Plan, it was recommended that Taylor Park be evaluated, during the Park District master planning process, as a potential site for a permanent dog park.
