Purpose of the Committee:

The Park Board has created the Recreation Center Stewardship Committee (RCSC) to identify key questions related to the historical preservation of Andersen, Carroll and Field Neighborhood Recreation Centers. In addition to identifying key questions, the RCSC will hear various perspectives from experts informed about issues related to these questions. The RCSC will document the various facts and issues involved in the historical preservation of these centers so that the current and future park boards can make informed decisions.

In partnership with the community, we provide quality parks and recreation experiences for the residents of Oak Park.
