

COMMUNITY MEETING for Lindberg Park and Field Park Prescribed Burns

Thursday, March 10, 2011 at 7:00pm
Mann School, 921 N. Kenilworth Ave

FOR OUR PARKS. FOR OUR PLANET.

In the late winter/early spring (March - April 2011) the Park District of Oak Park will conduct a prescribed burn of the Lindberg Park prairie trial gardens and the natural area in the southwest corner of Field Park for the purpose of improving the health of the plantings. You are invited to a community information meeting to learn about the role fire plays in maintaining the health of native plant communities such as prairie, savanna, and woodland. Specific details will be provided regarding this project and questions from attendees will be answered. This project is a Greening Initiative developed by the Park District's Greening Advisory Committee.

For more details about the prescribed burns or the Greening Advisory Committee, please contact Henrietta Yardley at 708.725.2450 or HenriettaY@oakparkparks.com.
